The new building fills a gap in the historic tissue along the red lines, providing transition between two existing scales. The volume of the building is pierced by an ellipsoid atrium with a peninsular tower, housing restaurants. The atrium occupies one fourth of the building area, and in essence, is a prototype of the quarter inner space. The roof of the fourth floor is a recreation space with its center occupied by a garden over the atrium.

这座新建筑沿红线展开，填补了由来已久的空白，作为一个过渡空间，衔接了现有的两座建筑物。建筑的体量是一个由椭圆中庭刺穿的半岛状塔楼，中庭有餐厅布置，它占整个建筑面积的四分之一，从大体上来说，它是该建筑室内空间的典型。屋顶是休闲空间，与中庭对应的地方恰好是休闲空间的中心部分，在这里设置了一个花园。
